

## OLOR WAITARA LANGUAGE SURVEY

At OLOR we have a diverse multi-cultural community which we value and celebrate. It is the rich cultural diversity that adds a wonderful dimension to the growth and outlook of our children. In our school community, we are endeavouring to build up an accurate profile of the different languages and the fluency of speakers, both parents and children, in these languages. This will help us meet the needs of children who have English as their second language, help us purchase some books for the library in the main languages represented in the community and give us further resources to celebrate our multiculturalism.
